

# Configuring Company Identity

This page configures how your business is identified within Ubersmith. This configuration is also Step 1 of 4: Company Identity of the [Welcome Wizard](#).

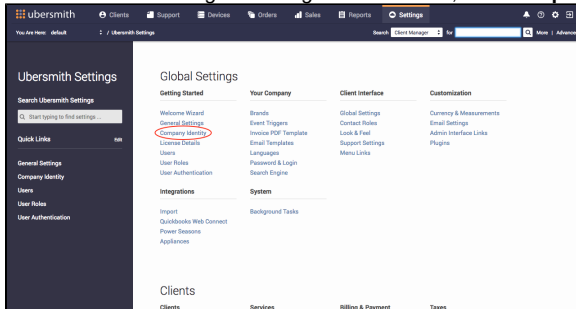

## Access the Company Identity Page

1. From the *Ubersmith Dashboard*, click **Settings**.

The *Settings* page appears.

2. From the *Global Settings – Getting Started* section, click **Company Identity**.

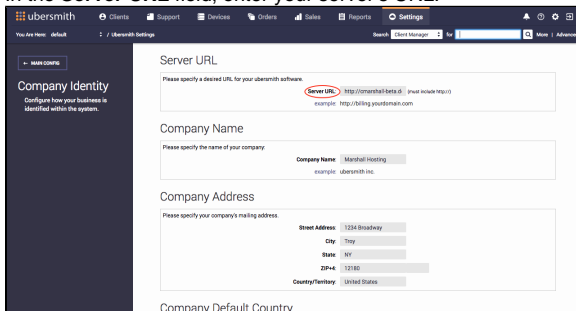

The *Company Identity* page appears.

## Complete the Server URL Section

If you plan to accept credit card data, your *Ubersmith* installation requires SSL/TLS to be enabled, so you need to use a secure URL that begins with **https**.

- In the **Server URL** field, enter your server's URL.

## Complete the Company Name Section

### On this page:

On this page:

- In the **Company Name** field, enter your company's name.

The screenshot shows the 'Company Identity' section of the Ubersmith Settings page. The 'Company Name' field is highlighted with a red circle and contains the text 'Marshall Hosting'. The 'Server URL' field contains 'http://connect@beta.0'. The 'Company Address' section includes fields for Street Address, City, State, ZIP+4, and Country/Territory.

## Complete the Company Address Section

- In the **Street Address** field, enter your company's street address.
- In the **City** field, enter your company's city.
- In the **State** field, enter your company's state.
- In the **Zip+4** field, enter your company's zip code.
- In the **Country/Territory** field, enter your company's country or territory.

The screenshot shows the 'Company Identity' section of the Ubersmith Settings page. The 'Company Address' section, including fields for Street Address, City, State, ZIP+4, and Country/Territory, is highlighted with a red circle. The 'Company Name' field contains 'Marshall Hosting'.

## Complete the Company Default County Section

- In the **Country** field, enter your company's default country.

The screenshot shows the 'Company Identity' section of the Ubersmith Settings page. The 'Company Default Country' section, including the 'Country' field, is highlighted with a red circle. The 'Company Address' section is also visible.

## Complete the Default Email Address Section

The default email address is used for any outgoing correspondence where an alternative email address is not specified.

- In the **Default Reply-to Email Address** field, enter your company's default email address.

The screenshot shows the 'Company Identity' section of the Ubersmith Settings page. The 'Default Reply-to Email Address' field is highlighted with a red circle. The 'Company Address' and 'Company Default Country' sections are also visible.

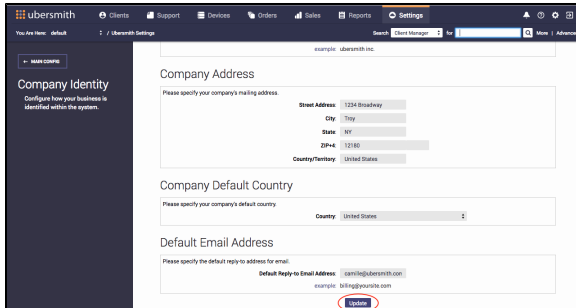

## Save Your Configuration Settings

- Click **Update**.

### Note

If you are configuring this page through the *Welcome Wizard*, click **Next** to advance to the next configuration.

The screenshot shows the UberSmith Settings page. The left sidebar contains a 'Company Identity' section with a 'Make Changes' button. The main content area is titled 'Company Address' and includes a 'Please specify your company's mailing address.' section with input fields for Street Address (1234 Broadway), City (Troy), State (NY), ZIP+4 (12180), and Country/Territory (United States). Below this is a 'Company Default Country' section with a 'Please specify your company's default country.' section and a dropdown menu set to 'United States'. The 'Default Email Address' section has a 'Please specify the default reply-to address for email.' section with a 'Default Reply-to Email Address' field containing 'sales@ubersmith.com' and an 'example: sales@yourstore.com' below it. A red circle highlights the 'Update' button at the bottom right of the form.
