Deleting Brands

If you delete a brand, all clients and service plans, will become part of the default brand.

1. [Access the Brands page.](#)
2. Click **delete** for the brand you want to delete.

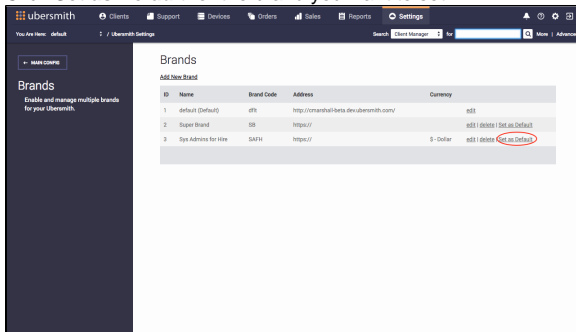

A confirmation message appears.

3. Click **Yes**.

Setting a Default Brand

1. [Access the Brands page.](#)
2. Click **Set as Default** for the brand you want to set.

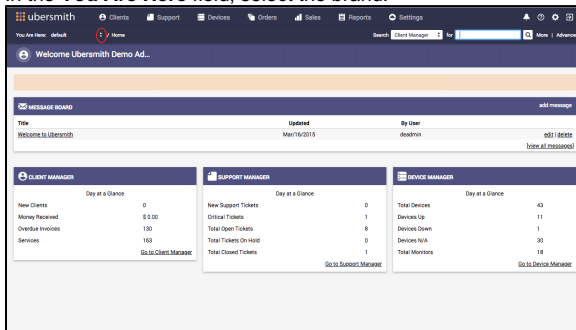

A confirmation message appears.

3. Click **Yes**.

Selecting a Brand

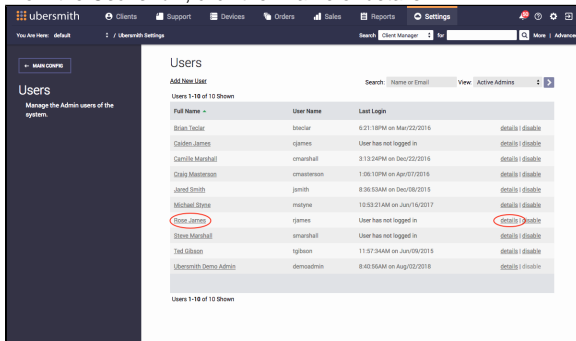

Selecting a brand sets your *Ubersmith* settings to that brand's specific configuration settings in the *Client Manager*, *Order Manager* and *Reports & Stats*. Once a specific brand is selected you can add clients, assign services, and process these services for that brand.

- In the **You Are Here** field, select the brand.

Assigning or Removing Brand Access

1. [Access the Users page.](#)
2. From the *User's* row, click their name or details.

The *Preferences* page appears.

3. In the *Brand Access* section click **edit**.

The screenshot shows the Ubersmith Settings page for a user named Rose James. The 'Brand Access' section is highlighted with a red box. It contains a table with columns 'Brand' and 'Access?'. The table lists 'default', 'Super Brand', and 'Sys Admins for Hire' with checkboxes for access. The 'Save' button is circled in red.

Brand	Access?
default	<input type="checkbox"/>
Super Brand	<input type="checkbox"/>
Sys Admins for Hire	<input type="checkbox"/>

The *User Info & Brand Access* page appears.

4. Click the *Brand Access* tab.

The screenshot shows the 'User Info & Brand Access' page for Rose James. The 'Brand Access' tab is selected and circled in red. The page displays various user settings including Full Name, Email, Authentication, Two-Factor Module, Preferred Language, API Access, and Facility. The 'Save' button is circled in red.

5. Select one or more brand to add access.
or
Deselect the brand you want to remove from the user's access.
6. Click **Save**.

The screenshot shows the 'User Info & Brand Access' page for Rose James. The 'Brand Access' tab is selected. The 'Full Brand Access?' section is visible, with radio buttons for 'Yes' and 'No'. Below this is a table with columns 'Brand' and 'Access?'. The table lists 'default', 'Super Brand', and 'Sys Admins for Hire' with checkboxes for access. The 'Save' button is circled in red.

Brand	Access?
default	<input type="checkbox"/>
Super Brand	<input type="checkbox"/>
Sys Admins for Hire	<input type="checkbox"/>
