

# Configuring Provision 4PSA DNS Manager Account Order Module

When the module runs, a [4PSA DNS manager account](#) is created.

1. In the **4PSA domain manager username** field, enter your user name.
2. In the **4PSA domain manager password** field, enter you password.
3. In the **4PSA dnsmanagerservice.wsdl URL** field, enter the .wsdl address.

The screenshot shows the 'Add Order Action' configuration page in the 'ubersmith' interface. The page has three tabs: 'Details', 'Prereqs', and 'Config', with 'Config' being the active tab. The configuration fields are as follows:

Field Label	Value
4PSA domain manager username:	cmarshall
4PSA domain manager password:	12345
4PSA dnsmanagerservice.wsdl URL:	https://YOUR_DOMAIN.COM:PORT/soap/schema/

At the bottom of the form, there are three buttons: 'Save', 'Save & New', and 'Cancel'.
