

Configuring Provision InterWorx Account Order Module

When the module runs, a license for InterWorx is created and associated to the client.

1. In the **InterWorx Access Key** field, enter the InterWorx access key.
2. In the **Host or IP** field, enter your InterWorx server's host name or IP address.
3. In the **Port Number** field, enter your InterWorx server's port number.
4. In the **Path to XML-RPC server** field, enter the network path to your InterWorx server.

The screenshot shows the 'Add Order Action' form in the 'ubersmith' application. The form has three tabs: 'Details', 'Prereqs', and 'Config', with 'Config' being the active tab. The form contains four input fields: 'InterWorx Access Key' (a large text area containing 'ritmivorkm34aernbrek'), 'Host or IP' (a text box containing '123.45.67.890'), 'Port Number' (a text box containing '2443'), and 'Path to XML-RPC server' (a text box containing '/nodeworx/xmlrpc-api.php'). At the bottom of the form are three buttons: 'Save', 'Save & New', and 'Cancel'.
