

# Automating Tickets with Ticket Timers

You can automate ticket actions by using ticket timers for a set future date and time. You can change the status, owner, department, classification, priority, and impact, as well as schedule followups and comments, and emails at a pre-defined date and time all within a single ticket timer.

Choose the criteria you want to change, by configuring the appropriate fields, and skipping the ones you do not need. Once a ticket timer runs, it is done.

An example of a ticket timer in use is to reopen a ticket you put on hold for a certain date and time.

## Automatically Updating Support Tickets

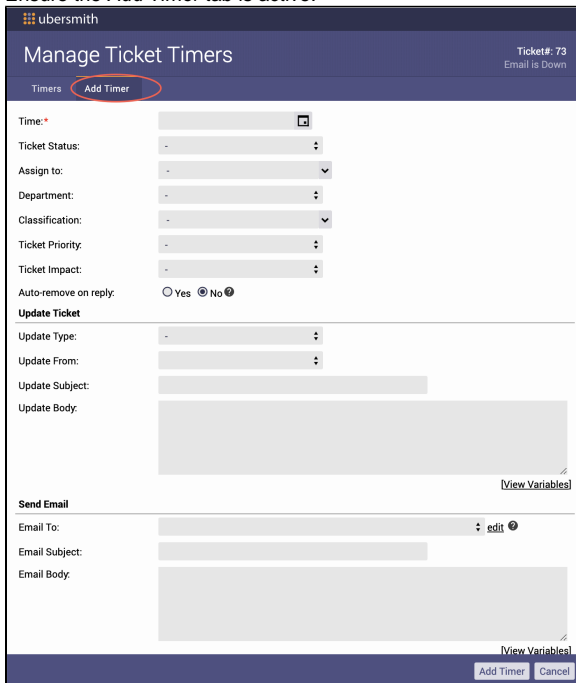

To enable a timer, you must set the date and time, and include any other field, one appropriate for the action.

1. [Access the Support Manager.](#)
2. [View the ticket.](#)
3. [Click Timers.](#)

The *Manage Ticket Timers* page appears.

4. [Ensure the Add Timer tab is active.](#)

5. In the **Time** field, enter a future date and time (mm/dd/yyyy hr:min AM/PM) or select the date and time using the calendar icon. If you set a time in the past, the timer activates within five minutes after saving.
6. In the **Ticket Status** field, select the new ticket status.
7. In the **Assign to** field, select the new owner.
8. In the **Department** field, select the new department.
9. In the **Classification** field, select the new classification.
10. In the **Ticket Priority** field, select the new priority.
11. In the **Ticket Impact** field, select the new impact.

- [Automatically Following Up and Commenting on Tickets](#)
- [Automatically Sending Support Emails Using Ticket Timers](#)
- [Editing Ticket Timers](#)
- [Deleting Ticket Timers](#)
- [Related Topics](#)

12. In the **Auto-remove on reply** field, select **Yes** to disregard the timer if/when the client replies. Select **No** to run the timer at the prescribed date and time regardless of what changes are made to the ticket before then.
13. Click **Add Timer**.

## Automatically Following Up and Commenting on Tickets

You can automatically follow up or comment on tickets using the Ticket Timer's Update Ticket section. Support ticket follow ups are emailed to the ticket owner and the client when the timer runs. Ticket comments can be either public or private and are not sent out.

1. [Access the Support Manager.](#)
2. [View the ticket.](#)
3. Click **Timers**.

The *Manage Ticket Timers* page appears.

4. Ensure the *Add Timer* tab is active.

## Automatically Sending Support Emails Using Ticket Timers

You can automatically send support ticket emails to your users, from the ticket timer's *Send Email* section. These emails sent by ticket timers will not be listed as follow ups to the ticket itself.

1. [Access the Support Manager.](#)
2. [View the ticket.](#)

### 3. Click **Timers**.

The *Manage Ticket Timers* page appears.

### 4. Ensure the **Add Timer** tab is active.

- In the **Time** field, enter a future date and time (mm/dd/yyyy hr:min AM/PM) or select the date and time using the calendar icon. If you set a time in the past, the timer activates within five minutes after saving.
- In the **Email To** field, toggle the edit/select to edit and enter the user's emails or toggle the edit /select to select and select the user's email.
- In the **Email Subject** field, enter the subject of the email.
- In the **Update Body** field, enter the text in the body of the email.

9. Click **Add Timer**.

The *Manage Ticket Timers* page appears.

4. Ensure the *Timers* tab is active.

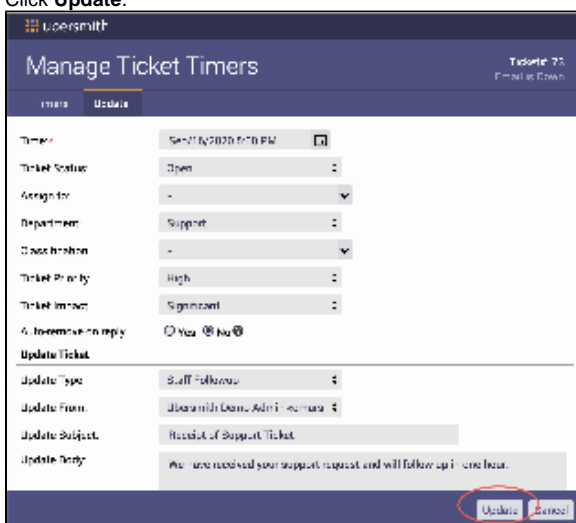

5. Select the timer you want to edit and click **edit**.

The *Update* tab appears.

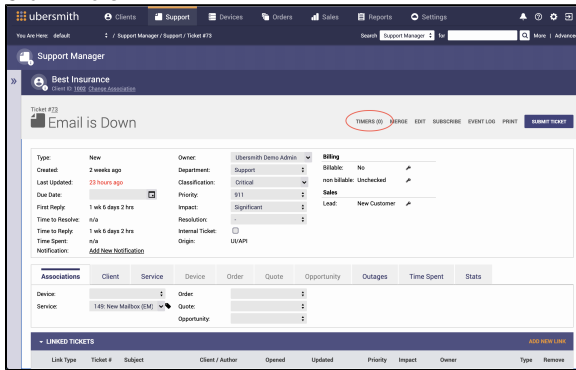

6. Make any necessary changes.  
7. Click **Update**.

## Deleting Ticket Timers

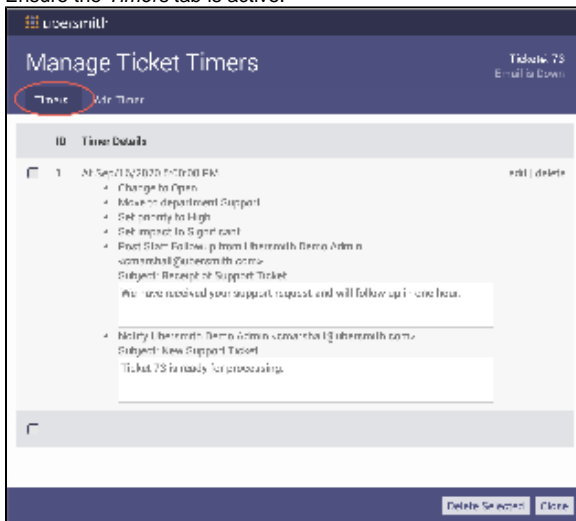

You can delete a ticket timer. Doing this stops all scheduled actions within the timer from being run.

1. [Access the Support Manager.](#)
2. [View the ticket.](#)
3. Click **Timers**.

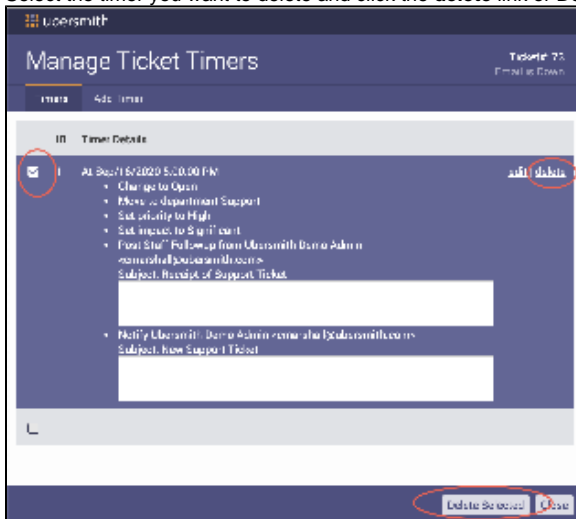

The *Manage Ticket Timers* page appears.

4. Ensure the *Timers* tab is active.

5. Select the timer you want to delete and click the **delete** link or **Delete Selected** button.

A confirmation message appears.

6. Click **Yes**.
