

Managing Domains from the Client Portal

Domain Management provides your clients access to their domain information.

List Domains

Clicking **List Domains** opens the *View Domains* page. Based on the selected view criteria, either current or all domains display. From this page, your clients can view details or update a registered domain.

Lookup Domain

Clicking **Lookup Domain** opens the *Lookup Domain* page. The *Lookup Domain* page enables your clients to search for a domain to see if it is available.
