Deactivating Clients

If you deactivate a client, you will turn off all services and credits, remove any queued charges, and disregard any outstanding invoices. You can use Ubersmith's [API](#) to deactivate many clients at once, using `client.deactivate`. Reactivating a client will not restore deactivated services, credits, queued charges or invoices.

1. [Access the Client Profile page](#).
2. From the *Client Profile* page, click **Deactivate Client**.

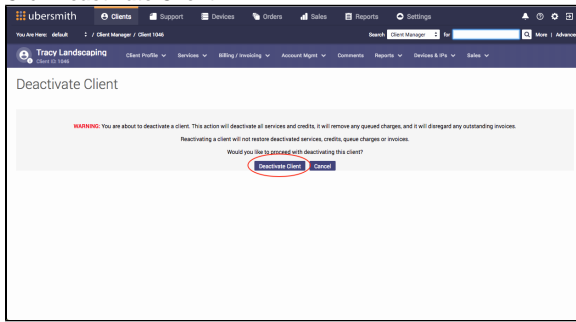

The *Deactivate Client* page appears.
