

Adding Coupons

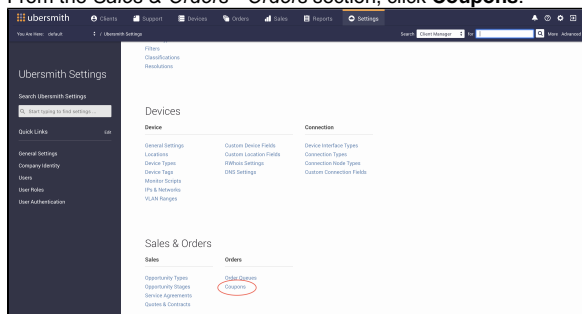

You can configure a discount code to offer a service at a lower rate for a specified date range. This feature works as a limited-time sale on your services. Coupons can be added to an order by setting the info[coupon] API field to a valid coupon code. The configured discount will then be applied to the service(s) in the order.

Access the Coupons Page

1. From the *Ubersmith Dashboard*, click **Settings**.

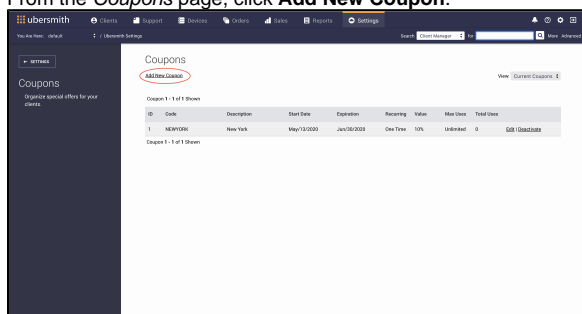

- The *Ubersmith Settings* page appears.
2. From the *Sales & Orders - Orders* section, click **Coupons**.

The *Coupons* page appears.

Complete the Add Coupon Page

- From the *Coupons* page, click **Add New Coupon**.

The *Add Coupon* page appears.

Complete the Coupon Details Tab

1. In the **Description** field, enter a description for the coupon.
2. In the **Coupon Code** field, enter an alphanumeric discount code or click Auto Generate to have one automatically generated. Codes are automatically formatted to be all capital letters.
3. In the **Service Plan** field, select the service this discount is for.
4. In the **Start Date** field, enter the date the sale starts.
5. In the **Expiration Date** field, enter the date the sales ends.
6. In the **Discount** field, enter the dollar amount, then select the \$ symbol, or enter the percent amount then select the % symbol for the service.
7. In the **Type** field, either select recurring or one-time. A one-time coupon offers a discount for a single billing period and a recurring coupon effectively discounts the cost of a service.
8. In the **Setup Discount** field, enter the dollar amount, then select the \$ symbol, or enter the percent amount then select the % symbol any service startup fees.
9. In the **Max Uses** field, enter the number of times the discount can be used, or select **unlimited**.

10. In the **VIP Code** field, select **Yes** if you want only existing clients to be able to use the discount.

The screenshot shows the 'Add Coupon' form in the ubersmith system. The 'Coupon Details' tab is selected. The form includes fields for English(USA) Description (20PERCENT), Français canadien Description, Português (Portugal) Description, Coupon Code (20PERCENT), Service Plan (Professional Services), Start Date (Jun/03/2020), Expiration Date (Jun/30/2020), Discount (20%), Type (One time), Setup Discount (0%), Max Uses (Unlimited), and VIP Code (Yes).

Complete the Upgrades Tab

If there are any upgrades for the service you are offering a discount on, configure those prices on the *Upgrades* tab.

1. After configuring the *Coupon Details* tab, click the *Upgrades* tab.
2. In the **Discount** field for the upgrade, enter the dollar amount, then select the \$ symbol, or enter the percent amount then select the % symbol for the service
3. In the **Setup Discount** field, enter the dollar amount, then select the \$ symbol, or enter the percent amount then select the % symbol any service startup fees.

The screenshot shows the 'Add Coupon' form in the ubersmith system, with the 'Upgrades' tab selected. The table below shows the configuration for the 'Professional Services' upgrade.

Upgrade	Discount	Setup Discount
Professional Services		
Project Management	10.00 %	0.00 %
Full Project Management	20.00 %	0.00 %
